Could We Be Moving Toward a "Greater Israel" as the Headquarters of a New World Order? Sixbert SANGWA • February 07, 2025

alignment with a carefully crafted agenda. Recent developments highlight this pattern, as evidenced by Trump's declaration that the U.S. will "take over" Gaza and relocate its people (NPR,2025; Foxnews, 2025). This statement, along with other modern expansionist policies concerning Israel - including Netanyahu's plans to annex parts of the West Bank (NPR, 2020) - raises a pressing question that demands scrutiny: Are these actions part of a larger plan to establish the headquarters of a New World Order (NWO) in the Middle East? The notion of a "Greater Israel" has long been discussed in political, historical, and religious contexts, often

be that world events, including conflicts in Palestine, the rebuilding of Gaza, and increasing Western intervention, are all stepping stones toward the fulfillment of a hidden agenda? More importantly, how does this align with biblical prophecy and the anticipated rise of the Antichrist? The Greater Israel Project: Historical Roots and Modern Implications

of Genesis 15:18: "On that day the Lord made a covenant with Abram, saying, 'To your offspring I give this land,

declaration, issued by British Foreign Secretary Arthur Balfour to Lord Lionel Walter Rothschild, explicitly supported a Jewish homeland in Palestine, laying the groundwork for the establishment of the State of Israel in 1948 (Rothchild Archive, n.d). This historical development can be viewed in light of Amos 9:15, which states, "I will plant them on their land, and they shall never again be uprooted out of the land that I have given them, says the Lord your God," and Isaiah 66:8: "Who has ever heard of such things? Who has ever seen things like this? Can a country be born in a day or a nation be brought forth in a moment? Yet no sooner is Zion in labor than she gives birth to her children". The Rothschild family, deeply embedded in global finance and political influence, played a pivotal role in the creation of modern Israel (Dan, 2025). This aligns with broader concerns about the extent to which powerful banking elites manipulate geopolitical affairs for their own gain. The establishment of Israel was not merely an act of national restoration but, as it appears, a calculated move toward establishing a global power center in

A historical perspective from 1940 adds context to these developments. According to The New York Times (October 6, 1940), there were early discussions about establishing a Jewish commonwealth in Palestine, with British officials considering various proposals for Jewish settlement. Notably, the New World Order's architects made explicit pledges to support Jewish aspirations in Palestine, as evidenced by communications between influential banking families and British officials. The article highlighted the complex political dynamics and

international interests surrounding the future of Palestine, demonstrating how these powerful entities had long

The Expansionist Agenda: A New World Order Strategy? The idea of a "Greater Israel" appears to be part of a broader spiritual deception, particularly concerning the Antichrist's ambition to usurp Christ's rightful role as King over the full biblical territory of Israel. According to 2 Thessalonians 2:4, the Antichrist "opposes and exalts himself above every so-called god or object of worship, so that he sits in God's temple, proclaiming himself to be God." This centralized system of governance seeks to

including Trump's unprecedented strengthening of U.S.-Israel relations and the recognition of Jerusalem as

The current push for international control over Gaza and other territories, under the guise of peacekeeping, raises prophetic concerns about the gradual fulfillment of this territorial agenda. This pattern of acquiring strategic control through military interventions and reconstruction efforts appears to be laying the groundwork for the Antichrist's eventual attempt to usurp Christ's sovereignty over the entire biblical inheritance of Israel. As Scripture warns in Daniel 11:45, the Antichrist will "pitch his royal tents between the seas at the beautiful holy mountain"—symbolizing his temporary occupation of the land that rightfully belongs to Christ as King of

Following the Balfour Declaration, President Harry Truman recognized Israel as an independent state on May 14, 1948. Truman, a 33rd degree Freemason, notably declared: "although I hold the highest civil honor in the world, I have always regarded my rank and title as a past Grand Master of Masons the greatest honor that had ever come to me"(Edward, 2023)—indicating that he valued his Masonic position above his role as

and esoteric teachings that have long been associated with global elites. Freemasonry, Kabbalah, and other mystical traditions share a common thread—an ambition for hidden knowledge and power. Many researchers argue that these teachings have been integrated into the ideological framework that guides world leaders, particularly those involved in Zionist expansionist plans (Prof. Jam, 2025). Revelation 3:9 states: "Note this: I will make those from the synagogue of Satan, who claim to be Jews and are not, but are lying—I will make them come and bow down at your feet, and they will know that I have loved you." This verse warns of those who falsely claim Jewish identity while working toward deceptive goals. Could this be relevant to the powerful figures orchestrating global events today?

Trump's presidency marked a significant acceleration of the Greater Israel agenda. His administration's policies regarding Israel, including the recognition of Jerusalem as its capital and the Abraham Accords, appear to align with the territorial divisions outlined in Maurice Gomberg's 1942 "Outline of Post-War New World Map" housed in the Library of Congress. This historical map, which predates modern developments, shows remarkable similarities to current geopolitical shifts in the Middle East. The alignment between Trump's Middle East policies and this New World Order map from 1942 raises

important questions about the larger agenda at play. Could Trump be part of a grand psychological operation

Could Netanyahu Be on Mission? The concept of "Greater Israel" has gained renewed attention due to recent developments under Netanyahu's government. Critics point to several developments as evidence of expansionist ambitions: continued settlement growth in the West Bank, the formal annexation of the Golan Heights, and alliances with religious Zionist parties (Jam, 2025). The historical context of this debate traces back to the Six-Day War, which

significantly expanded Israel's territorial control. According to The Nation (2023), some Israeli leaders have

concerns, historical claims, and political aspirations in the region. The Third Temple and the Coming of the Antichrist Biblical prophecy speaks of a future temple in Jerusalem that will play a crucial role in end-time events. The Temple Institute has already declared they have everything prepared for the Third Temple's construction, including trained priests, sacred vessels, and architectural plans. Is the "Greater Israel" plan truly a fulfillment of God's will, or is it part of a grand deception orchestrated by the principalities of darkness? The world is moving

Many Christians have been led to believe that modern Israel's policies are inherently aligned with biblical prophecy. The Israeli government maintains that their actions are purely defensive, citing security threats from groups like Hamas and Hezbollah.
